

Internship Opportunity at WeoGeo

Student Major(s) Desired:

School of Business Administration – Information Systems Track
Engineering (all disciplines)
Geography
(all grades levels considered; prefer Juniors and Seniors)

Company Name:

WeoGeo -- <http://www.WeoGeo.com>

Job / Internship Title:

Website and Software Tester Intern

Location:

2828 SW Corbett Ave, Suite 135
Portland, OR 97201
(one mile from PSU bookstore - [map](#))

Application Deadline:

4/1/08 or until position is filled

About WeoGeo:

With the help of Amazon's breakthrough web services (specifically EC2 and S3), WeoGeo creates a one-stop web based marketplace for mapping. It supplies surveyors, engineers, cartographers, and scientists with the ability to conveniently store, search, and exchange high-resolution CAD and GIS mapping products. Map authors easily list their data for sale. Researchers quickly find the data they need.

Position Description & Qualifications:

The position entails documenting and testing all aspects of our innovative web site and corresponding software components.

This position will use the following technologies: Selenium (automated web page testing framework), Retrospectiva (bug tracking software), Subversion (version control software), and a wiki for documentation.

While no prior experience is required, we heavily use XHTML/CSS, SVN, Javascript, AJAX, and Ruby On Rails. Experience in any of these is desirable.

Start Date:

As soon as possible

Hours per Week:

Flexible, to start 10-20

Compensation:

\$15 per hour, paid internship
