

**Homework #3 due Tuesday January 26, 2016 (in class)**

1. Read Chapter 2 sections 2.7 - 2.12 except for section 2.10 which deals with the Smith Chart (pages 74 – 87 and 100 - 116). However, it's useful to read section 2-10.4 (on pages 95 to 98) on "Impedance to Admittance Transformations" but you can ignore references to the Smith Chart.
  
2. Problems from the book:
  - 2.27,
  - 2.28 (no printout needed),
  - 2.32 (a-e),
  - 2.41 (a-c no CD results needed),
  - 2.42,
  - 2.75,
  - 2.78
